THE ESSENTIAL  
TO MAKE YOUR  
SNOWPARK  
SAFE AND FUN.  
CERTIFIED UNI-EN  
1176/1177

## CERTIFICATI UNI-EN 1176/1177 AFNOR

Ogni singola struttura che costruiamo rispetta al 100% le normative europee UNI-EN1176 e UNI-EN1177 per la costruzione di strutture per giochi parco e impianti sportivi. Tutte le strutture sono accompagnate da una documentazione che ne prova e garantisce la corretta e certificata costruzione.

## CERTIFIED UNI-EN 1176/1177 AFNOR

*Every single obstacle that we produce is UNI-EN 1176 and UNI-EN 1177 certified. All obstacles are accompanied by a documentation that proves and guarantee the correct build up followind these european regulations for sport areas and obstacles.*

## RITIRO USATO

Abbiamo deciso di offrire un servizio in più ai nostri clienti. Ritiriamo e valutiamo le strutture usate e ne ricicliamo i materiali costruendo nuove strutture speciali o ne smaltiamo ogni singolo pezzo in modo ecosostenibile.

## TRADE-IN

*We decided to offer an additional service to our customers. We collect and evaluate the used obstacles and recycle materials building new special structures or recycle every single piece in a sustainable way.*

## RESTAURO STRUTTURE

Una struttura restaurata è una struttura sicura. Per questo offriamo ai nostri clienti un servizio di restauro delle strutture già esistenti per renderle più utilizzabili e sicure sempre nel rispetto della natura.

## OBSTACLES RESTORATION

*A restored obstacle is a safe obstacle. For this reason we offer to our clients a service of obstacles restoration to give them always usable and safe structures.*

ABBIAMO DECISO DI EVOLVERE IL CONCETTO DI SNOWPARK.

COME? GRAZIE AI CONSIGLI DIRETTI DEGLI SHAPER. ABBIAMO ASCOLTATO LE LORO ESIGENZE E LE ABBIAMO UNITE ALLE REGOLE DI SICUREZZA BASE CHE DEVONO ESISTERE NEGLI SNOWPARK E AL GUSTO PER IL DESIGN. OGNI NOSTRA STRUTTURA NON ESCE COME DA UNA CATENA DI MONTAGGIO MA E' UN PEZZO UNICO PER LA CURA NEI DETTAGLI. SCELTA DI MATERIALI PERFORMANTI E RICERCATI MA CON UN COSTO E UN PESO LIMITATO CHE RENDONO LE NOSTRE STRUTTURE DI FACILE TRASPORTO SULLA NEVE DI FACILE STOCCAGGIO ALLA FINE DELLA STAGIONE. ABBIAMO INOLTRE LIMITATO L'USO DI MATERIALI AD ELEVATO IMPATTO AMBIENTALE UTILIZZANDO FERRO, ALLUMINIO E VERNICI A POLVERI O A BASE D'ACQUA. SENZA DIMENTICARE LA SCELTA DI COLORI PER IL NOSTRO SITO E IL CATALOGO CHE STATE LEGGENDO USANDO FONT ECO E COME COLORE PREDOMINANTE IL BIANCO PER EVITARE L'USO INUTILE DI INCHIOSTRI.

UNA SCELTA PER IL BENE DI CIO' CHE ABBIAMO A CUORE: LA MONTAGNA .

BE VISIONARY.

*WE DECIDED TO EVOLVE THE CONCEPT OF SNOWPARK.*

*HOW? THANKS TO THE SHAPERS. WE HAVE HEARD THEIR NEEDS AND WE DECIDED TO JOIN IT WITH SAFETY RULES THAT EXIST IN SNOWPARK AREAS AND THE TASTE FOR THE DESIGN. ALL OUR RAILS DOES NOT COME OUT OF OUR FACTORY AS A CHAIN OF ASSEMBLY, EACH PIECE IS UNIQUE FOR THE CARE IN THE DETAILS. A TARGETED CHOICE OF MATERIALS WITH A LIMITED COST AND WEIGHT THAT MAKE OUR RAILS PERFECT FOR EASY TRANSPORT ON THE SNOW AND FOR STORAGE AT THE END OF THE SEASON.*

*ALSO WE HAVE LIMITED USE OF MATERIALS WITH HIGH ENVIRONMENTAL IMPACT USING IRON, ALUMINIUM POWDER COATINGS OR WATER BASED COATINGS. ALSO OUR WEBSITE AND THIS CATALOGUE YOU ARE READING USE ECO FONTS AND THE BASE COLOR IS WHITE TO LIMIT USE OF INK.*

*A CHOICE FOR WHAT WE LOVE MOST: THE MOUNTAIN.*

*BE VISIONARY.*

# BE VISIONARY.

# SNOWPARK

**LIES DAS!  
LEGGI QUI!  
READ THIS!****DE SNOWPARK**

...kann Sprünge, Schläge, Rampen, Böschungen, Fun-Boxen, Jibs, Half Pipes, Quarterpipes, Snowcross Boardercross, Buckelpisten oder andere gebaute oder natürliche Geländeformen enthalten. Mach dich mit dem Gelände vertraut und beachte alle Hinweise. Denke daran, daß sich die Bedingungen laufend verändern.

**Bei der Benutzung von Freestyleanlagen setzt du dich dem Risiko aus schwer verletzt, oder getötet zu werden**

**erst schauen dann springen**

Umfahre alle Sprünge bevor du sie springst. Nutze deinen ersten Lauf um dich aufzuwärmen und das Gelände kennenzulernen. Springe erst, wenn du dir sicher bist, daß die Landung frei ist.

**plane deinen Lauf**

Plane deinen Lauf mit jedem Element, das du benötigst. Deine Geschwindigkeit, deine Anfahrt und der Abersprung wirken sich unmittelbar auf deinen Sprung und Landung aus.

**lass es langsam angehen**

Kenne deine Grenzen und fahre immer wie es deinem Können entspricht. Suche dir kleinere Parks oder Elemente zum Anfangen und arbeite dich nach oben.

**Respekt verdient Respekt**

Respektiere das Gelände und andere Fahrer. Immer nur ein Fahrer zur gleichen Zeit auf einem Element. Warte bis du dran bist und kündige deinen Start an. Verlasse den Landebereich immer so schnell wie möglich.

Starte klein und arbeite dich nach oben. Inizia piccolo e sviluppa la tua progression. Start small and work your way up.
